Experience

Project: Barkerend Offices and Workshops
Value: £1,972,000.00
Duration: 42 Weeks
Employer: Accent Community Partnerships
Architect: Waller & Partners – Mr Andrew Croxall
Employers Agent: MNB Partnership – Mr Phil Holroyd
Structural Engineer: WSP – Mr Paul Jennings

The new 3 storey office block compound of traditional concrete foundations with steel frame and suspended concrete upper floors, with reconstituted external stone walls with a tiled roof and aluminium double glazed windows and doors.

Also incorporated with the office block was an 8 person passenger lift.

The construction of the workshops also comprised of traditional concrete foundations, ground floor concrete floated slab, steel frame with steel suspended mezzanine floors, with a combination of metal cladding to the roof and walls with reconstituted stone to half of the external height and metal roller shutter doors.
